Dear Resident,

As you may know, the Town of Holbrook has entered into a construction contract with Celco Construction Corporation, of Pembroke, MA, to complete a water main construction project which includes replacing the existing water main on Stevens Drive and Baker Road.

We anticipate that construction activities will commence on **Monday April 13, 2015**. The construction period will be Monday through Friday (non-holidays) and typical work hours will be between **7 a.m. and 4 p.m.** Construction activities in the roadway will entail various equipment, machinery and materials. Roadway trenches will be paved each Friday. The Police Department will likely close down Stevens Drive and Baker Road to through traffic, but it will remain open to local and emergency traffic. Residents will always have access to their driveways. Please exercise caution while operating a motorized vehicle in the construction area. Additionally, please keep children and pets at a safe distance from any construction activity.

The Town has retained the services of an Engineering Representative, Environmental Partners Group, Inc., to oversee the Contractor and act as the DPW's liaison. Personnel will be onsite throughout the construction activities should you have any questions or concerns.

We appreciate your continued cooperation during this very important public works construction project. If you have any questions, please contact Noreen Jordan at the Holbrook Public Works Department: 781-767-1800 between 8:00 a.m. and 4 p.m. Your cooperation with this important Town project is greatly appreciated.

Town of Holbrook  
Public Work Department  
Benjamin Ecord, Superintendent
